

TELEMAX MESSAGING CENTER

Have you noticed the more ways we have to be **"connected"**, the more **disconnected** we really are? TeleMax operators can give your current and potential customers the personal service they expect.

Professional Service at an Affordable Price

Voice Mail, Email, Social Media, and Text Messaging can be valuable business tools, but none of them can properly service your customers when you miss their phone call. Whether you're on the go or on the phone, with TeleMax, you'll **never miss another sale, service call**, or opportunity to give your customers the personal service they expect from their alarm company.

Here's why TeleMax is the smart choice

- ☒ Calls are answered by a live person *your company name* and give your customers personal service and peace of mind
- ☒ TeleMax is available 24 hours a day/7 days a week
- ☒ Forward your office phones to your toll-free TeleMax number *whenever you choose*
- ☒ Operators are professionally trained, courteous, understand our industry, and can access your account data to assist you and your customers
- ☒ Less expensive than traditional untrained answering services
- ☒ Flexible notification options

All TeleMax plans include live operator answering of calls in your company name. Call for the low monthly rate.
