

Primis Access Control

Elevating Security in K-12 and Higher Education

Primis provides a suite of solutions tailored to meet the unique needs of K-12 and higher education campuses.

Why Choose Primis?

Identiv's Primis access control is a comprehensive system designed to integrate seamlessly with existing IT infrastructure, providing advanced technology, user-friendly features, and cost-effective implementation. It's the ideal choice for educational institutions seeking to enhance their security infrastructure and create a safe, conducive learning environment.

IT-Centric Approach

Primis integrates with your existing IT network, providing a robust foundation for secure access management.

Lockdown Capability

Quickly secure your campus in emergency situations with Primis' robust lockdown feature, adding an extra layer of protection.

Scalability

As your institution grows, so does Primis. The system is designed to accommodate expanding security needs, ensuring long-term effectiveness.

User-Friendly Interface

Manage your access control system with ease, thanks to Primis' intuitive user interface, suitable for staff with varying levels of technical expertise.

Active Directory Integration

- Streamline user management by leveraging your existing Active Directory infrastructure to manage access rights effortlessly.

Video Surveillance

- Enhance situational awareness with comprehensive video surveillance integration for real-time monitoring and incident response

Recreational Scheduler

- Manage access to recreational facilities with ease, ensuring secure and responsible use of your campus amenities.

Wireless Door Locks

- Implement flexible and cost-effective security solutions with wireless door locks, reducing installation and maintenance costs.
